CERTIFICATIONS:

Certificate IV in Web Development | TAFE SA (Jan 2024 - Dec 2024)

VOLUNTEER EXPERIENCE:

Volunteer Website and Admin Support | Fruit Share Adelaide (FSA)

Apr 2025 - Present

- Enter and maintain accurate records in the internal database, including crop types, distribution sites, and harvesting locations.
- Conduct research to determine market prices for various crops and input pricing data into the system.
- Created the organisation's Hot Weather Policy to support safe harvest operations.
- Support harvest leaders by helping them schedule harvests and record harvest details.
- Regularly update the Squarespace website by adding new content and ensuring that everything looks good and functions properly.

WORK EXPERIENCE:

Front-End Developer | Socioh (The OrangeApp Inc., USA)

Nov 2021 - Dec 2023

- Developed and maintained responsive web applications using HTML, CSS, and AngularJS.
- Collaborated closely with UX/UI designers to implement visually appealing and intuitive user interfaces.
- Implemented responsive design strategies to optimise websites for mobile devices.
- Performed cross-browser testing and debugging to ensure consistent functionality across all major browsers.
- Participated in team meetings and contributed to project planning and strategy discussions.
- Assisted in managing Shopify stores for eCommerce clients.

PROJECTS:

Socioh.com

- Developed and maintained Socioh.com, a social media marketing platform.
- Implemented responsive and user-friendly web pages
- Collaborated with the team to enhance platform features and integrations.
- Conducted performance optimisation for improved website speed and user experience.

Landing Page (Omnifood Website) for Personal Skill Enhancement

- Designed and developed a responsive landing page using HTML5, CSS3, and JavaScript, showcasing a cool animation in testimonial and meals section.
- Implemented a contact form and pricing section to enhance user interaction.

WordPress Website (for Certificate IV in Web Development)

- Developed a WordPress site for a hypothetical client(AAA) to create a Digital Marketing Website.
- Used the 'CONTACT FORM 7' plugin to add a form in the website for user interaction.
- Used the 'YOAST SEO' plugin for search engine optimisation.
- Focused on responsive design for mobile users to ensure an optimal browsing experience.

PHP Website (for Certificate IV in Web Development)

- Built an inventory management system for a hypothetical hardware company ('Acme Hardware').
- Implemented CRUD (Create, Read, Update, Delete) operations and a secure admin login page.
- Enabled product image uploads to a web server, enhancing database functionality.
- Validated all HTML pages using AChecker and ensured compliance with HTML5 standards.
